About the Organization

Our agency is composed of individuals with a keen eye for design and technology. Creative, and innovative, with a thirst for knowledge, our team consists of professionals of diverse backgrounds who thrive in a collaborative environment. We aim to get a better understanding of our clients' vision, and to be able to customize the strategy to ensure that the outcome goes beyond their wildest expectations.

Internship Description

Our company is open to receiving Product Designer Interns who can help us develop in our Design department. You'll be working with the design team and streamlining our workflow, working side by side with our Project Manager.

Key Responsibilities

- Develop sitemaps, wireframes and final artwork
- Communicate and articulate effectively design approaches and solutions.
- Partner with developers throughout implementation and QA

Required Qualifications

- Bachelor's or diploma student in Graphic Design, Interaction Design, or Digital Design or equivalent program.
- Enthusiasm for the role of product design and the ability to develop and learn design.
- Strong visual design skills with a keen sense of graphic, web, and digital design
- Self-motivated and able to work both independently and collaboratively depending on the project
- Good listening skills, with an affectionate and collaborative approach to design
- Ability to collect and reply to feedback from partners within the design process
- Strong communication skills, being able to articulate ideas and processes
- Experience with design tools such as Adobe XD, Figma, and the Adobe Creative Suite

- Experience in building interactive prototypes
